Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Tuesday 09 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Persistent widespread rain overnight, with strong winds. Milder than recently.

This Evening and Tonight:
Dry this evening, before persistent rain spreads eastwards across the region overnight, heavy at times. Accompanied by strong winds throughout, with coastal gales developing in the early hours. Milder than recently. Minimum temperature 6 deg C (43 deg F).

Wednesday:
A dull start to a wet and windy day, with continued rain, persistent, and heavy at times. Blustery throughout, with coastal gales, and risk of inland gales overnight. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Unsettled days ahead, with frequent heavy, blustery showers throughout this period, with the risk of hail at times. Strong winds throughout with gales likely, perhaps severe near coasts.
